

## NL SUPPORT Undergraduate Training in Research Award (NUTRA)

### STEP 1: Potential Supervisors

### Supervisor Identification Form

Below is the procedure for identifying undergraduate students for the NUTRA program:

1. Faculty interested in having an **undergraduate student** participate in a patient-oriented research project will need to submit this Supervisor Identification Form.
2. This is a *preliminary step* to identify supervisors and allocate funds for this program. Due to a possible funding constraint, we will be accepting applications from all faculty members seeking students, but preference will be given to full-time faculty if funds will not cover all research projects.
3. Please note that only faculty members conducting patient-oriented research will be considered for the program.
4. This program is open to any post-secondary student resident in Newfoundland and Labrador enrolled at Memorial University but not enrolled in a graduate program. Students will be permitted to submit one application with one faculty member.
5. Students and supervisors will work together to prepare a NUTRA application form in Step 2.

This information will be made available to undergraduate students who are seeking a summer patient-oriented research opportunity. Faculty members must complete this form to be eligible to participate in the NUTRA program. For more information on this program or to retrieve forms, please visit: [www.nlsupport.ca/Funding/NUTRA](http://www.nlsupport.ca/Funding/NUTRA)

**Please submit this form via e-mail to Catherine Street at  
[Catherine.Street@med.mun.ca](mailto:Catherine.Street@med.mun.ca)**

## NL SUPPORT Undergraduate Training in Research Award (NUTRA)

### STEP 1: Potential Supervisors

#### Supervisor Contact Information

Name:

Discipline or Division:

Faculty or School:

Telephone number:

Email:

#### Research Information

Research area (*including how your research is patient-oriented*):

Will your research project require any clearances (i.e. ethics, animal care or biohazard)?

No                       Yes

Website:

**Please select one of the following 2 options:**

- Yes, I would like my contact information circulated to students
- No, do not circulate my information. I have a student chosen already:

Student Name:

Student Number:

*Note: identified students must still submit an application during Phase II*

**Student Requirements (Unless specified below, the NUTRA matching process is open to all undergraduate students, regardless of academic background or skill set)**

Required/preferred: Are you only interested in students who are in a specific program of study (e.g., biochemistry, sociology)? If so which area?

Are you only interested in students with specific skill sets? If so what are these?

Are you only interested in students who have been in the undergraduate program for more than one year? If so should they have completed year 2, year 3?

Is prior research experience necessary? If so please specify:

Other required skills? Please specify:
